## SUMMARY

Web & Software Developer with an inherent eye for design and the technical know-how to bring it to life. Always expanding knowledge and skills, climbed up in each company. Never settling for the ordinary and challenging the status-quo, able to create and implement new processes for better efficiency.

## TECHNICAL SKILLS

**Languages:** HTML, CSS, JavaScript, JQuery, JSX
**Applications:** Git, GitHub, Node.js, Express.js, SQL, MongoDB, React, Heroku, Microsoft Office, Visual Studio Code, Adobe Creative Suite

## LATEST PROJECT

**Casino Royale | Link to Github:** https://github.com/kpresta04/casino-royale |
**Link to Deployed Project:** http://react-casino-royale.herokuapp.com/

My final app for the bootcamp. Working with one other student, created a casino gaming app with a blackjack game and slot machine. My duties included the backend of the slot machine and the front-end for the entire app. Made using React.js, Material-UI, Redux, Firebase, VSCode, HTML, CSS, JSX, Node.js, MongoDB, Heroku, and more.

## EXPERIENCE

**Data Management Lead**                                                         2015 – Present
**GEHA Health, Inc**                                                             Lee's Summit, MO

Utilized databases to create reports for missing provider directory verifications. Lead and trained a team of 20+ through the directory verification processes. Created and implemented new processes and procedures to allow verifications to run more efficiently. *Key Accomplishments:* Trained employees for their new position. Tested upcoming software for the department (Salesforce).

**Sr. Mutual Funds/Securities Quality Control Representative**                   2013 – 2015
**DST Systems, Inc**                                                             Kansas City, MO

Reviewed and corrected new accounts, changes and transfers for real estate investment trusts. Including IRAs, 401ks, pensions, etc. *Key Accomplishments:* Was recruited to become a quality control representative due to the volume and accuracy of my production.

## EDUCATION

**University of Kansas,** *Full Stack Development Bootcamp Certificate*  Nov 2019 - May 2020
Completed the full stack development coding bootcamp.

**Metropolitan Community College,** *Graphic Design*  Jan 2008 - Dec 2010
Completed 66 credit hours toward an Applied Associates Degree in Graphic Design.
